

HLTAID007 - Provide Advanced Resuscitation

Course Objective

This unit of competency deals with the provision of advanced first aid resuscitation techniques, life support and management of casualty(s) until the arrival of medical or other assistance, and provision of support to other providers.

Course Content

You will be trained in advanced resuscitation techniques including airway management using an oropharyngeal (OP) airway and the use of suction; oxygen administration to the breathing casualty using appropriate delivery devices; oxygen resuscitation using bag-valve-mask (BVM) and manually triggered resuscitator (MTR); and the use of an AED.

Selection Criteria

The principles of Access & equity will be applied in the selection of students and in the delivery of the training and assessment services.

However, participants must have English-speaking skills and reading skills which will be assessed during the enrolment process. They must also have the strength and agility to manage CPR and other emergency situations.

Pre/Co-requisites

- HLTAID003 – Provide First Aid (Preferred)
